SET UP INSTITUTE OF TECHNOLOGY OF SILICATES IN WARSAW

A directive of the Ministry of Light Industry dated 14 December 1951, and effective 11 January 1952, set up the Institute of the Technology of Silicates. The institute is to be located in Warsaw and is under the general authority of the Minister of Light Industry.

The general task of the institute is to conduct scientific research in technology, organization, and management, for the purpose of technical and economic development of products obtained from mineral raw materials. Receipts and expenditures of the institute will be included in the Ministry of Light Industry section of the state budget.

The institute is assigned the following facilities for carrying out its planned tasks:

1. Glass Technology Laboratory of the Main Institue of Industrial Chemistry in Warsaw

2. Laboratory of the Glass Industry in Zawiercie (formerly under Central Administration of the Glass Industry)

3. Laboratory of the Binder Materials Industry in Groszowice, (formerly under Central Administration of the Binding Materials Industry)

4. Laboratory of the Lime Industry in Plaza-Krakow (formerly under the Central Administration of the Binding Materials Industry)

5. Laboratory of the Ceramic Building Materials Industry in Andrespol (formerly under Central Administration of the Ceramic Building Materials Industry)

6. Scientific and Technical Documentation Center of the Binder Materials Industry in Groszowice (formerly under Central Administration of the Binder Materials Industry)

The Institute is also assigned machinery, technical apparatus, and equipment included in the inventory list of 1 September 1951.
